

2020 IODP Outcomes PMO Meeting

PMO Action Item 2001: The PMOs will open discussion during virtual PMO meetings on how we can facilitate and support workshops to initiate Flagship Initiatives as a part of the transition to the new 2050 Science Framework “Exploring Earth by Scientific Ocean Drilling”. The first of these virtual PMO meetings should precede the next Forum meeting that is planned for February 2021.

PMO Action Item 2002: The PMOs agree to hold additional virtual PMO meetings (in addition to the annual meeting associated with the IODP Forum) to promote increased collaboration and discussion on the implementation of the “Enabling Elements” of the new 2050 Science Framework “Exploring Earth by Scientific Ocean Drilling”.
